

The logo features a stylized letter 'A' with a vibrant color gradient from blue at the top to purple, pink, and orange at the bottom. To the left of the 'A' are several small, light blue circles of varying sizes, resembling water droplets or bubbles.

ACQUA Esclusiva

TECHNICAL DATA

Struttura	Epoxy powder coated steel, black plexiglass
Compressor	1/8HP with thermal protection and starting capacitor
Refrigerant capacity	180W 155kcal/h
Sistema Frigo Gasatura	316L stainless steel
Refrigerant gas	R134a
Condensation	Forced Air
Technology	Microfiltration (optional: Reverse Osmosis)
Produced Water	Room temperature, chilled and sparkling chilled water
Functions	Air Quality detection system Air sanitization via Photocatalysis (Optional); Bottle sterilization system using UV-C lamp; Automatic system to stop detected leaks; Regulation of the refrigerating capacity with temperature detection; Regulation of the operation of the refrigeration system using mechanical thermostat; Cup holder compartment;
Display	Display 4.3"
Configuration	Installation to the water mains or supply via tank internal containment
Dispensing capacity	30 Lt/h \cong
Power supply	220-230 Vac 50-60Hz
Dimensions	295x1400x450 mm

THIS DEVICE MUST BE SUBJECT TO PERIODIC MAINTENANCE IN ORDER TO MAINTAIN THE EFFICIENCY DECLARED BY THE MANUFACTURER IS CONSTANT
